## PROFESSIONAL SUMMARY

MLOps Engineer with 6 years of experience operationalizing machine learning models at scale. Expert in building ML infrastructure, model deployment pipelines, and monitoring systems for production ML workloads.

## TECHNICAL SKILLS

**ML Platforms:** MLflow, Kubeflow, SageMaker, Databricks, Vertex AI

**Container & Orchestration:** Docker, Kubernetes, Helm, Istio

**Programming:** Python, R, Scala, SQL, Go

**ML Libraries:** TensorFlow, PyTorch, Scikit-learn, XGBoost

**Cloud Platforms:** AWS, Google Cloud Platform, Azure

## PROFESSIONAL EXPERIENCE

**Senior MLOps Engineer** | AI Innovations Lab | 2022 - Present  
Chicago, IL

- Built ML platform serving 200+ models with 99.9% uptime
- Implemented automated model retraining reducing manual effort by 85%
- Designed A/B testing framework for model performance evaluation

**Machine Learning Engineer** | DataScience Corp | 2020 - 2022  
Milwaukee, WI

- Deployed recommendation system serving 5M+ daily predictions
- Created model monitoring dashboard detecting drift and anomalies

## EDUCATION

**Master of Science in Machine Learning** | Northwestern University | 2020

## CERTIFICATIONS

- Google Cloud Professional ML Engineer
- AWS Certified Machine Learning - Specialty
- Kubernetes Certified Application Developer
